cepted areas of college level algebra with special applications for technicians. Three lectures. Three semester hours credit.

MAT 223T — Technical Mathematics II (Trigonometry).

Offered second semester. Broad coverage of the most widely accepted areas of college trigonometry with special applications for the technicians. Base common to slide rule and logarithm is examined. Three lectures. Three semester hours credit.

PHY 323T — Physics (Mechanics, Heat and Sound).

Offered first semester. Fundamental laws of mechanics, heat, and sound with technical applications. Two lectures. Two hours laboratory. Three semester hours credit.

PHY 423T — Physics (Electricity and Optics).

Offered second semester. Fundamental laws of electricity; magnetism and optics with technical applications. Two lectures. Two hours laboratory. Three semester hours credit.

PHY 413T — Industrial Psychology.

Offered second semester. Significance of individual differences in industry; instruments and techniques of selecting and placing personnel; motivating, training, and supervising the workers; nature and control of fatigue; psychological aspects of labor relations; morale and attitude measurements; industrial counseling. Three lectures. Three semester hours credit.

the various types most likely to be used by technicians. Three lectures. Three semester hours credit.

GRA 113T — Fundamentals of Drafting.

Offered first semester. A basic course covering areas common to all drafting, with special emphasis on proper technique and early habit formation. One lecture. Four hours laboratory. Three semester hours credit.

GRA 223T — Descriptive Geometry.

Offered second semester. Theory and problems designed to develop the ability to visualize points, lines, and surfaces in space, to relate them to each other, and to apply these. One lecture. Four hours laboratory. Three semester hours credit.

GRA 235T — Machine Drafting.

Offered second semester. Emphasize methods, techniques and procedures in presenting screws, bolts, rivets, springs, thread types, symbols for welding, materials, finish and heat treatment notation, working order preparation, routing, and other drafting room procedures. Two lectures. Six hours laboratory. Five semester hours credit.

GRA 345T — Electrical-Piping-Sheet Metal Drafting.

Offered first semester. An advanced course in drafting in which techniques and knowledge are employed in the planning of mechanical and electrical objects. Efficient use of all common types of applicable handbooks, code books, and other standard references are an integral part of this phase of drafting. Two lectures. Six hours laboratory. Five semester hours credit.

GRA 355T — Architectural Drafting.

Offered first semester. Presentation and application of architectural drafting room standards. Two lectures. Six hours laboratory. Five semester hours credit.

GRA 465T — Structural Drafting.

Offered second semester. Structural section, terms and conventional abbreviations and symbols used by structural fabricators and erectors are studied. Knowledge is gained in the use of the A.I.S.C. Handbook, the tables of squares and logarithms, and trigonometric functions. Problems are studied that involve structural designing and drawing of beams, columns, connections, trusses and bracing. Two lectures. Six hours laboratory. Five semester hours credit.

GRA 474T — Map and Topographic Drawing.

Offered second semester. Selected drafting techniques are applied to the problem of making maps, traverses, plot plans, plan and profile drawing using maps, field survey data, aerial photographs, and related references, materials including symbols, notations, and other applicable standardized materials. One lecture. Six hours laboratory. Four semester hours credit.

MAT 113T — Technical Mathematics I (Algebra).

Offered first semester. Broad coverage of the most widely ac-

and Fortran Programming language. Problems are related to basic application areas. Three lectures. Four hours laboratory. Five semester hours credit.

DPR 215T — Computer Business Applications.

Applying computer logic and concepts to solving business problems in accounts receivable, accounts payable, payroll, and inventory control. Students increase proficiency using FORTRAN programming language. Three lectures and four hours laboratory per week. Five semester hours credit.

DPR 224T — Systems Analysis and Design.

Use of data processing equipment in designing a complete management information system. Shows how all business functions interrelate by requiring student to analyze manual procedures, design a sound systems approach, make proper selections, and implement a feasible conversion schedule. Two lectures and four hours laboratory per week. Four semester hours credit.

DPR 234T — Other Programming Language.

This course is designed to expand the student's knowledge of various programming languages and techniques. A greater insight into the interaction of computer hardware and software is provided by programming exercises in machine-oriented, symbolic languages, COBOL and BAL. In contrast, sophisticated algorithmic and problem-oriented languages are studied to introduce the student to the concept of machine-independent software. Two lectures and four hours laboratory per week. Four semester hours credit.

EGR 113T — Computational Methods.

Instruction in basic principles and procedures in mathematical and technical computations with the aid of various mathematical tables and formulas, printing and electronic calculators. Two lectures. Two hours laboratory. Three semester hours credit.

EGR 213T — Statics and Strength of Materials.

Offered first semester. An introductory course into the field of structural design, consisting of a study of statics and strength of materials. Emphasis is given to elementary analysis of forces in simple structures, and a study of the properties of such materials as steel, wood, and concrete, and the design of beams, columns, and shafts with these materials. Three lectures. Three semester hours credit.

EGR 343T — Surveying.

Offered second semester. A familiarization laboratory designed to develop in the drafting student the ability to take surveyor's notes and convert them into finished drawings. It includes basic principles of geometry, theory, and use of instruments, mathematical calculators, and the control and reduction of errors. One lecture. Four hours laboratory. Three semester hours credit.

ENG 233T — Technical Report Writing.

Offered second semester. The study of fundamentals of technical writing style and mechanics with practice in preparing reports of

BCN 233T — Building Materials II.

A continuation of BCN 133T. Three lectures. Three semester hours credit.

BCN 253T — Contracts and Specifications.

Offered second semester. The general laws of contracts, agencies, sales agreements, and engineering specifications as incorporated into contracts; the business and legal phases of engineering. Three lectures. Three semester hours credit.

BCN 263T — Construction Methods and Equipment.

Offered second semester. The selection of materials, equipment, problems of electrical and water supply. A consideration of problems in construction that will familiarize the student with requirements pertaining to specific solutions in these areas. One lecture. Four hours laboratory. Three semester hours credit.

BCN 343T — Cost and Estimating I.

Offered first semester. Preparation of material and labor quantity surveys from actual working drawings and specifications. Three lectures. Three semester hours credit.

BCN 424T — Building Design.

Offered second semester. This subject includes working drawings and details of the actual construction of a model of a small house. It also includes architectural design, working and structural drawings of more complex structures. Structural computations are required. Eight hours laboratory. Four semester hours credit.

BCN 443T — Cost and Estimating II.

A continuation of BCN 343T. Three lectures. Three semester hours credit.

DPR 111T — Key Punch, Sorter and Verifier.

This course is arranged so that students will master the IBM key punch. By a combination of lecture and key punch drill, the student will become a proficient key punch operator. In addition, the entire array of unit record equipment will be surveyed with emphasis upon proficient operation of the IBM sorter, reproducer, and accounting machine. Two hours laboratory per week. One semester hour credit.

DPR 115T — Data Processing I (BASIC).

A unit record oriented course designed to acquaint the student with operating the keypunch, sorter, verifier, accounting machine, collator, reproducer, and interpreter, and to introduce the boardwiring principles required by each machine. Three lectures and four hours laboratory. Five semester hours credit.

DPR 125T — Data Processing II (Systems Fundamentals).

Offered second semester. A basic course that advances concepts, terminology, and theory of modern computers and provides a firm background in use of IBM 360-20 punched card utility programs

SOCIOLOGY**Mr. Williams****SOC 2113 — Introduction to Sociology.**

Deals with human relationships. Students will receive a synopsis of whole field of sociology: the social world, the social and cultural process within this world, and the integration of these processes in relation to the individual, the group, and the institution. Three lectures. Three semester hours credit.

SOC 2133 — Marriage and Family.

A study of the family as a cultural unit, the institution of marriage, the problems of parenthood and of Socio-economic adjustments to society. Three lectures. Three semester hours credit.

SPEECH AND THEATRE**Mrs. Clark, Mrs. Haley****SPT 1113 — Oral Communication (Principles of Speech).**

Basic communication theory and its application in interpersonal, small group and public address settings. Study and practice in making speeches for all occasions; major emphasis on organization of material and practice in speaking before a group. Three lectures per week. Three semester hours credit.

SPT 2222 — Introduction to Dramatic Arts (Stagecraft).

Survey of great periods of drama; introduction to stagecraft, play selection, directing, lighting, make-up, acting and production techniques. Students are required to participate in actual play production. One lecture per week. Two hours laboratory per week. Two semester hours credit.

TECHNICAL EDUCATION**Mr. Upchurch, Mr. Haley, Mr. Miles, Mr. Alford****BCN 113T — Fundamentals of Carpentry.**

Offered first semester. A course designed to familiarize the student with the fundamentals of carpentry, principles involved in a typical structure, and their applications and solutions. One lecture, four hours laboratory. Three semester hours credit.

BCN 133T — Building Materials I.

A course designed to familiarize the student with the physical properties of the materials generally used in the erection of structures, with brief description of their manufacture. Three lectures. Three semester hours credit.

SEC 2113 — Advanced Typewriting (III).

A continuation of SEC 1113. Three lectures. Three semester hours credit. Prerequisite: SEC 1113.

SEC 2123 — Production Typewriting (IV).

Skill development and vocational competency are the objectives of this course. Production of varied typewritten communications with emphasis on quality and quantity. Three lectures. Three semester hours credit. Prerequisite: SEC 2113.

SEC 2213 — Advanced Shorthand (III).

The aim of this course is to increase accuracy and speed of transcription with emphasis on mailability of letters. Three lectures. Three semester hours credit.

SEC 2223 — Dictation and Transcription (IV).

A course to develop transcription skills. Accuracy and speed of transcription correlated with English, punctuation, spelling, division of words, and vocabulary building. Three lectures. Three semester hours credit.

SEC 2413 — Secretarial Practice (Office Procedures).

Course designed to present essential duties and special techniques for a secretarial career at the highest professional level; to acquaint the student with the modern office systems and practices. Three lectures.

SEC 2513 — Office Appliances.

Instruction and practice in the operation of office appliances, including stencil and spirit duplicators, addressograph machine, composer, transcribing machines, electric typewriters, mimeoscopes, and copying machines. Three lectures. Three semester hours credit.

SEC 2523 — Office Machines.

Instruction and practice in the operation of the major types of adding and calculating machines; development of a working knowledge of the ten-key and full keyboard adding machines, keydriven and rotary calculators and other mechanical office devices. Three lectures. Three semester hours credit.

SEC 2613 — Business Communications.

Study and practice in writing different types of business letters and reports, with emphasis on correct spelling, grammar, punctuation, and clarity of communication. Three lectures. Three semester hours credit.

SEC 2713 — Secretarial Practicum.

Supervised practical applications of theory and skills in various secretarial jobs and situations within an office. This course is designed for advanced secretarial science majors. One hour lecture and four hours lab. Three semester hours credit.

PHY 2444 — General Physics IIA.

For engineering and science students. Deals with magnetism, electricity, and light. Three lectures. Two hours laboratory. Four semester hours credit.

POLITICAL SCIENCE

Mr. Holbrook

PSC 1113 — American National Government.

Survey of the organizations, political aspects of and basis for American government. Three lectures. Three semester hours credit.

PSC 1123 — American State and Local Government.

Relationship between states and federal governments, and between states and their subdivisions; organizations, function, and operation of executive, legislative, and judiciary; elections and suffrage generally, Mississippi particularly. Three lectures. Three semester hours credit.

SECRETARIAL

Mrs. Branch, Mrs. Gowan, Mrs. Wilson

SEC 1103 — Elementary Typewriting (I).

Mechanism, care, and operation of the typewriter; keyboard-drills to gain speed and accuracy; introduction to letter forms. Students with a year of high school typewriting cannot receive credit for this course. Three lectures. Three semester hours credit.

SEC 1113 — Intermediate Typewriting (II).

Advanced drills for speed and accuracy; letter forms; telegrams and other business forms; manuscript typewriting. Three lectures. Three semester hours credit. Prerequisite: high school typewriting or SEC 1103.

SEC 1203 — Elementary Shorthand (I).

The theory and practice of Gregg and Simplified shorthand. The principles are applied by reading and writing shorthand with a limited amount of dictation and transcription from shorthand notes. Students with a year of high school shorthand cannot receive credit for this course. Three lectures. Three semester hours credit.

SEC 1213 — Intermediate Shorthand (II).

A continuation of SEC 1203. Three lectures. Three semester hours credit.

SEC 1313 — Records Management.

Importance of records control; functions of records; theory of processing, storing, retrieving, and restoring of various records; practice in alphabetic, numeric, geographic, and subject filing. Three lectures. Three semester hours credit.

MUS 2631-2-3 — Organ for Majors III.

A continuation of MUS 1641-2-3.

MUS 2641-2-3 — Organ for Majors IV.

A continuation of MUS 2631-2-3.

MUS 2711 — Band III.

A continuation of MUS 1721. Four hours laboratory per week. One semester hour credit.

MUS 2721 — Band IV.

A continuation of MUS 2711. Four hours laboratory per week. One semester hour credit.

MUS 2731 — Small Band Groups.

A continuation of MUS 1741. One semester hour credit.

MUS 2741 — Small Band Groups.

A continuation of MUS 2731. One semester hour credit.

MUS 2811 — Choir III.

A continuation of MUS 1821. Four hours laboratory per week. One semester hour credit.

MUS 2821 — Choir IV.

A continuation of MUS 2811. Four hours laboratory per week. One semester hour credit.

PHYSICS

Mr. Shirley

PHY 2213 — Physical Science Survey I.

Designed for the non-technical student. A survey of laws of physics and astronomy. Three lectures. Three semester hours credit.

PHY 2223 — Physical Science Survey II.

Designed for the non-technical student. A survey of chemistry, meteorology, and geology. Three lectures. Three semester hours credit.

PHY 2414 — General Physics I.

Deals with mechanics, heat, and sound. Three lectures. Two hours laboratory. Four semester hours credit.

PHY 2424 — General Physics II.

Deals with electricity, magnetism, light, and modern physics. Three lectures. Two hours laboratory. Four semester hours credit.

PHY 2434 — General Physics IA.

For engineering and science students. Deals with mechanics, heat, and sound. Three lectures. Two hours laboratory. Four semester hours credit.

MUS 2224 — Theory IV.

A continuation of MUS 2214. Three lectures and two hours laboratory. Four semester hours credit.

MUS 2311 — Class Piano III.

A continuation of MUS 1321. Two classes per week. One semester hour credit.

MUS 2321 — Class Piano IV.

A continuation of MUS 2311. Two class meetings per week. One semester hour credit.

MUS 2331 — Piano for Non-Majors III.

A continuation of Music 1341.

MUS 2341 — Piano for Non-Majors IV.

A continuation of Music 2331.

MUS 2351-2-3 — Piano for Majors III.

A continuation of MUS 1361-2-3.

MUS 2361-2-3 — Piano for Majors IV.

A continuation of MUS 2351-2-3.

MUS 2411 — Class Voice III.

A continuation of MUS 1421. One semester hour credit.

MUS 2421 — Class Voice IV.

A continuation of MUS 2411. One semester hour credit.

MUS 2431 — Voice for Non-Majors III.

A continuation of Music 1441.

MUS 2441 — Voice for Non-Majors IV.

Continuation of Music 2431.

MUS 2451-2-3 — Voice for Majors III.

A continuation of MUS 1461-2-3.

MUS 2461-2-3 — Voice for Majors IV.

A continuation of MUS 2451-2-3.

MUS 2511 — Band Instruments III (Non-Majors).

A continuation of MUS 1521.

MUS 2521 — Band Instruments IV (Non-Majors).

A continuation of MUS 2511.

MUS 2531-2-3 — Band Instruments for Majors III.

A continuation of MUS 1541-2-3.

MUS 2541-2-3 — Band Instruments for Majors IV.

A continuation of MUS 2531-2-3.

MUS 2611 — Organ III (Non-Majors).

A continuation of MUS 1621.

MUS 2621 — Organ IV (Non-Majors).

A continuation of MUS 2611.

MUS 1621 — Organ II (Non-Majors).

A continuation of Music 1611. Two private lessons each week and one hour practice daily.

MUS 1631-2-3 — Organ for Majors I.

For freshman music education majors. Two private lessons per week. Credit is given according to the amount of practice per week. One semester hour is given for three hours practice; two semester hours credit requires six hours practice and nine hours practice gives three semester hours credit.

MUS 1641-2-3 — Organ for Majors II.

A continuation of MUS 1631-2-3.

MUS 1711 — Band I.

Prerequisite: Consent of instructor. Organized to serve the college at games, concerts, and other public and special functions. Four hours laboratory per week. One semester hour credit.

MUS 1721 — Band II.

A continuation of MUS 1711. Four laboratory hours per week. One semester hour credit.

MUS 1731 — Small Band Groups.

Groups less than regular band size. Usually study and play popular music. One semester hour credit.

MUS 1741 — Small Band Groups.

A continuation of MUS 1731. One semester hour credit.

MUS 1811 — Choir I.

Membership by audition. The performing group of the vocal music department makes numerous appearances during the year, both on the campus and also throughout the state. Four hours laboratory per week. One semester hour credit.

MUS 1821 — Choir II.

A continuation of MUS 1811. Four laboratory periods per week. One semester hour credit.

MUS 2132 — Music Literature I.

A listening course to give the student a better understanding of music through the ages. It offers the non-music major as well as the music major an opportunity to explore music as an art. Two lectures per week. Two semester hours credit.

MUS 2142 — Music Literature II.

A continuation of MUS 2132. Two lectures per week. Two semester hours credit.

MUS 2214 — Theory III.

A continuation of MUS 1224. Three lectures and two hours laboratory. Four semester hours credit.

practice per week. One semester hour is given for three hours practice; two semester hours credit requires six hours practice and nine hours practice gives three semester hours credit.

MUS 1361-2-3 — Piano for Majors II.

A continuation of MUS 1351-2-3.

MUS 1411 — Class Voice I.

For instrumental and piano majors only. Fundamentals of voice production. Breathing technique, vowel and consonant study, physiological approach to tone production, and study of simple art songs. Thirty minutes practice required per day. One semester hour credit.

MUS 1421 — Class Voice II.

Study and performance of Italian and English art songs. Thirty minutes practice required per day. One semester hour credit.

MUS 1431 — Voice for Non-Majors I.

Voice for music education majors and non-majors who meet the instructor's requirements. Participation in choir required.

MUS 1441 — Voice for Non-Majors II.

A continuation of Music 1431.

MUS 1451-2-3 — Voice for Majors I.

Satisfactory audition required for voice majors. Technique in the study of voice. Principles of relaxation, breathing, distinct enunciation, and interpretation. Participation in choir required. Two half-hour lessons per week. Credit is given according to the amount of practice per week. One semester hour is given for three hours practice; two semester hours credit requires six hours practice and nine hours practice gives three semester hours credit.

MUS 1461-2-3 — Voice for Majors II.

A continuation of MUS 1451-2-3.

MUS 1511 — Band Instruments I (Non-Majors).

Two half-hour lessons per week. One hour practice daily.

MUS 1521 — Band Instruments II (Non-Majors).

A continuation of Music 1511.

MUS 1531-2-3 — Band Instruments for Majors I.

Two half-hour lessons per week. Credit is given according to the amount of practice per week. One semester hour is given for three hours practice; two semester hours credit requires six hours practice and nine hours practice gives three semester hours credit.

MUS 1541-2-3 — Band Instruments for Majors II.

A continuation of MUS 1531-2-3.

MUS 1611 — Organ I (Non-Majors).

For freshman students who desire organ as an elective. Two private lessons each week. One hour practice daily.

MFL 2113 — Intermediate French I.

A review of French grammar, and continued development of basic language skills. Reading materials are used which have literary and cultural value. Three lectures. Three semester hours credit.

MFL 2123 — Intermediate French II.

Literary and cultural appreciation of the language and the country is enhanced by the reading of a book which pictures life in a typical French village, with class conversation concerning the contents of this book. Three lectures. Three semester hours credit.

MUSIC

**Mrs. Irby, Mrs. Sullivan,
Mr. Young, Mr. Chisholm**

MUS 1113 — Music Appreciation (Non-Majors).

Listening course designed to give the student, through aural perception, understanding and appreciation of music as a moving force in Western culture. Three lectures. Three semester hours credit.

MUS 1214 — Theory I.

Recognition and part writing. Diatonic intervals, major and minor triads, rhythmic and melodic patterns. Correlated keyboard harmony and dictation. Sight singing in bass and treble clefs. Three lectures and two hours laboratory. Four semester hours credit.

MUS 1224 — Theory II.

A continuation of MUS 1214. Three lectures and two hours laboratory. Four semester hours credit.

MUS 1311 — Class Piano I.

Fundamentals of techniques, scales, studies, and exercises are stressed. Introduction to playing in all keys. Emphasis on basic chords. Two class meetings per week. One semester hour credit.

MUS 1321 — Class Piano II.

A continuation of MUS 1311. Two class meetings per week. One semester hour credit.

MUS 1331 — Piano for Non-Majors I.

Private piano designed for non-music majors or those piano majors and piano concentrations in music with insufficient background to meet the requirements for Freshman Piano.

MUS 1341 — Piano for Non-Majors II.

A continuation of Music 1331.

MUS 1351-2-3 — Piano for Majors I.

Study of major and minor scales, arpeggios and basic keyboard technique. Compositions of moderate difficulty taken from the works of the major composers and emphasizing the baroque, classic, and romantic composers. Credit is given according to the amount of

MAT 2263 — Calculus IIIA.

Prerequisite: MAT 1833. Solid analytics; vectors; improper integrals; line integration. Three lectures. Three semester hours credit.

MAT 2273 — Calculus IVA.

Prerequisite: MAT 2263. Infinite series; partial differentiation; multiple integrals. Three lectures. Three semester hours credit.

MILITARY SCIENCE

LTC. Taylor and SGM. Larson

MSC 1111 — First Year Basic Course, Army.

Organization of the Army and ROTC; the military as a profession; historical growth and development of the Army with emphasis on management implications; development of leadership fundamentals through practical exercise and study of human factors influencing behavior. One lecture and one hour of leadership laboratory. One credit.

MSC 1121 — First Year Basic Course, Army.

A continuation of MIS 1111. One lecture and one hour of leadership laboratory. One credit.

MSC 2111 — Second Year Basic Course, Army.

Military geography; the use of maps and aerial photography; the functions, duties, and responsibilities of junior leaders; development of leadership potential through practical exercise. One lecture and one hour of leadership laboratory. One credit.

MSC 2121 — Second Year Basic Course, Army.

Introduction to tactics and operations. Mission, organization and composition of basic military teams; principles of offensive and defensive combat stressing firepower, movement and communication; introduction to troop leading procedures; development of leadership potential through practical exercise. One lecture and one hour of leadership laboratory. One credit.

MODERN LANGUAGE

Mr. Chisholm

MFL 1113 — Elementary French I.

This course is designed to develop basic language skills; speaking, reading, writing. Phonetic symbols are used to aid correct pronunciation, but the principal aid is to be found in the language laboratory. Three lectures per week. Three semester hours credit.

MFL 1123 — Elementary French II.

A continuation of MFL 1113. Special drill on verb forms and uses, as well as idiomatic vocabulary, by means of oral and written exercises. Three lectures per week. Three semester hours credit.

MATHEMATICS

Mr. Boggan, Mr. Earle, Mrs. Kimble

MAT 0013 — Pre-College Algebra.

A basic course designed for students unable to make proper progress in college algebra. Individual directed study. Three lectures. Three semester hours credit. (Non-transferable.)

MAT 1233 — Intermediate Algebra.

This course is designed for students whose qualifications are deficient for College Algebra and for students whose curriculum requires three hours of mathematics for graduation. Materials covered include algebraic factoring, fractions, problem solving, roots and radicals, quadratics, graphs, and simultaneous equations. Three lectures. Three semester hours credit.

MAT 1313 — College Algebra.

This comprises a review of algebraic operations, systems of linear equations, and quadratic equations; and a study of logarithms, determinants, progressions, binomial theorem, partial fractions, and theory of equations. Three lectures. Three semester hours credit.

MAT 1323 — Trigonometry.

This course is a study of solutions of right and oblique triangles, identities, trigonometric equations, and polar and parametric equations. Three lectures. Three semester hours credit.

MAT 1723 — The Real Number System.

Structure and properties of the number systems of arithmetic. Limited to students preparing to teach. Three lectures. Three semester hours credit.

MAT 1733 — Informal Geometry and Algebra.

Basic ideas and structure of algebra; intuitive foundations of geometry. Three lectures. Three semester hours credit.

MAT 1823 — Calculus IA.

Coordinate systems; basic theorems of analytics; functions; limits; the derivative; the integral; differentiation and integration of algebraic functions; applications. Three lectures. Three semester hours credit.

MAT 1833 — Calculus IIA.

Prerequisite: MAT 1823. Differentiation and integration of transcendental functions; the definite integral; methods of integration; applications. Three lectures. Three semester hours credit.

MAT 2253 — Differential Equations.

Solution of first and higher order differential equations; existence theorems; solution by series; and application to problems in geometry, physics, and chemistry. Three lectures. Three semester hours credit.

IED 2313 — General Metal Work.

Design in metal, new materials, jigs, machine processes, and metal finishes; construction of metal projects. Six hours laboratory. Three semester hours credit.

IED 2323 — Forging and Welding.

Practice in handforging; annealing, hardening, and tempering of tool steel; gas and electric welding. Six hours laboratory. Three semester hours credit.

IED 2413 — History and Appreciation of the Artcrafts.

Growth and development of the artcrafts through the ages; instructional materials; practical designs; construction of projects in art metal, leather, plastics, ceramics, and other handicrafts. One lecture. Four hours laboratory per week. Three semester hours credit.

JOURNALISM

Miss Neal

JOU 1113 — Principles of Journalism I.

Introductory journalism, news reporting, construction of the news story, sources, and the types and methods of handling elementary study of typography and headline writing. Lecture plus laboratory experience. Three semester hours credit.

JOU 1123 — Principles of Journalism II.

The preparation of advertising copy and layouts for newspapers, agencies, and retail advertising. Types of layouts; copy writing and proofreading, with emphasis on proof marks. Lecture plus laboratory experience. Three semester hours credit.

JOU 2213 — Editing I.

Problems and policies in processing news. Special areas of reporting. Selection, editing, and display of news. News channels, modern trends. Lecture plus laboratory experience with school newspaper. Three semester hours credit.

JOU 2223 — Editing II.

Headline writing. Processing of copy. Newspaper typography and design. Types of newspapers. Layout of special sections and pages. Picture editing. Lectures plus laboratory experience with the school newspaper. Three semester hours credit.

HPR 2323 — RECREATIONAL LEADERSHIP. Planning and leadership techniques for conducting community recreation centers, playgrounds, parks, and school recreation programs. Three lectures per week. Three semester hours credit.

HPR 2511 — TEAM SPORTS (THIRD COURSE). Lecture on rules and techniques. Practice in (activities) _____, _____.
(name sports)
Two classes per week. One semester hour credit.

HPR 2521 — TEAM SPORTS (FOURTH COURSE). Lecture on rules and techniques. Practice in (activities) _____, _____.
(name sports)
Two classes per week. One semester hour credit.

HPR 2531 — INDIVIDUAL AND DUAL SPORTS (THIRD COURSE). Lecture and practice in _____.
(name sports)
Two classes per week. One semester hour credit.

HPR 2541 — INDIVIDUAL AND DUAL SPORTS (FOURTH COURSE). Lecture and practice in _____.
(name sports)
Two classes per week. One semester hour credit.

HPR 2551 — FITNESS AND CONDITIONING TRAINING (THIRD COURSE). Lecture and practice in _____.
name: (1) body mechanics, (2) weight training, or (3) gymnastics

Two classes per week. One semester hour credit.

HPR 2561 — FITNESS AND CONDITIONING TRAINING (FOURTH COURSE). Lecture and practice in _____.
name: (1) body mechanics, (2) weight training, or (3) gymnastics

Two or more classes per week. One semester hour credit.

HPR 2571 — DANCE (THIRD COURSE). Lecture and practice in _____.
name type of dance: (1) folk, (2) square, (3) modern, (4) creative

Two classes per week. One semester hour credit.

HPR 2581 — DANCE (FOURTH COURSE). Lecture and practice in _____.
name type of dance: (1) folk, (2) square, (3) modern, (4) creative

Two classes per week. One semester hour credit.

INDUSTRIAL EDUCATION

Mr. Adams

IED 1213 — Woodwork I.

Knowledge, appreciation, and skill in use of hand tools; woods, joints, finishes, fasteners, and job planning. Six hours laboratory. Three semester hours credit.

IED 1223 — Woodwork II.

Mill practices and techniques. Machine tool operation; job planning and design. Six laboratory. Three semester hours credit.

responsibilities of home, school, and health agencies. Three lectures. Three semester hours credit.

HPR 1313 — Introduction to Health, Physical Education and Recreation.

Introduction to the objectives, literature, and organizations of the profession. Analysis of successful teaching with discussion of the responsibilities and opportunity of professional personnel. Orientation of student to opportunities in the field. Three lectures. Three semester hours credit.

HPR 1511 — TEAM SPORTS (First Course). Lecture on rules and techniques in (activities) _____. Two classes per week. One semester hour credit. (name sports)

HPR 1521 — TEAM SPORTS (Second Course). Lecture on rules and techniques in (activities) _____. Two classes per week. One semester hour credit. (name sports)

HPR 1531 — INDIVIDUAL AND DUAL SPORTS (First Course). Lecture and practice in _____. Two classes per week. One semester hour credit. (name sports)

HPR 1541 — INDIVIDUAL AND DUAL SPORTS (Second Course). Lecture and practice in _____. Two classes per week. One semester hour credit. (name sports)

HPR 1551 — FITNESS AND CONDITIONING TRAINING (First Course). Lecture and practice in _____. Two or more classes per week. One semester hour credit.
name: (1) body mechanics, (2) weight training, or (3) gymnastics

HPR 1561 — FITNESS AND CONDITIONING TRAINING (Second Course). Lecture and practice in _____. Two classes or more per week. One semester hour credit.
name: (1) body mechanics, (2) weight training, or (3) gymnastics

HPR 1571 — DANCE (First Course). Lecture and practice in _____. Two classes per week. One semester hour credit.
name type of dance: (1) folk, (2) square, (3) modern, (4) creative

HPR 1581 — DANCE (Second Course). Lecture and practice in _____. Two classes per week. One semester hour credit.
name type of dance: (1) folk, (2) square, (3) modern, (4) creative

HPR 2111 — GENERAL ACTIVITIES (Third Course). Same description as HPR 1111. Two classes per week. One semester hour credit.

HPR 2121 — GENERAL ACTIVITIES (Fourth Course). Same description as HPR 1111. Two classes per week. One semester hour credit.

HPR 2131 — VARSITY SPORTS. Participation in _____ varsity sport. One semester hour credit. (name sports)

HPR 2141—VARSITY SPORTS. Participation in _____ varsity sport. One semester hour credit. (name sports)

HPR 2212 — FIRST AID. Instruction and practice in methods prescribed in the American Red Cross standard and advanced courses. Two lectures per week. Two semester hours credit.

HEC 2313 — Clothing Construction.

A study of textile fibers, weaves, and finishes as they relate to consumer selection, use, and care. Advanced techniques of clothing construction are included in laboratory experiences. One lecture. Four hours laboratory per week. Three semester hours credit.

HISTORY

Mr. Brown, Dr. Butler, Mr. Williams

HIS 1113 — Western Civilization I.

A general survey of European history from ancient times to 1648 A.D. Recommended for freshmen. Three lectures. Three semester hours credit.

HIS 1123 — Western Civilization II.

A general survey of Western civilization since 1648 A.D. Three lectures. Three semester hours credit.

HIS 2213 — American (U.S.) History I.

This course is a survey of U.S. History from the period of discovery and exploration through the Civil War. Three lectures. Three semester hours credit.

HIS 2223 — American (U.S.) History II.

This course is a survey of U.S. History from Reconstruction to the present. Three lectures. Three semester hours credit.

HEALTH, PHYSICAL EDUCATION & RECREATION

**Mr. Burrell, Mr. Davis, Mr. Kimble,
Mr. Morgan, Miss Thomas**

HPR 1111 — General Activities (First Course).

These courses include varied exercises and activities such as volleyball, etc. No lecture is involved. Not designed for physical education majors. Two classes per week. One semester hour credit.

HPR 1121 — General Activities (Second Course).

Same description as HPR 1111. Two classes per week. One semester hour credit.

HPR 1131 — Varsity Sports. Participation in _____ varsity sport. One semester hour credit. (name sports)

HPR 1141 — Varsity Sports.

Participation in _____ varsity sport. One semester hour credit. (name sports)

HPR 1213 — Personal and Community Health I.

Application of principles and practices of healthful living to the individual and community; major health problems and the mutual

GRAPHICS AND DRAWING**Mr. Adams, Mr. Miles****GRA 1112 — Engineering Drawing I.**

The use of instruments, geometric construction, orthographic projections, sectional views, and lettering. Four hours laboratory per week. Two semester hours credit.

GRA 1122 — Engineering Drawing II.

Auxiliary views, dimensioning, anometric projections, oblique drawing, and fasteners. Four hours laboratory per week. Two semester hours credit.

GRA 1132 — Graphic Communications.

Blueprint reading, general use of instruments, understanding basic lines and planes. Lettering theory of projection drawing; technical communication through orthographic, auxiliary, and oblique vision. Four hours laboratory. Two semester hours credit.

GRA 1142 — Visualization and Graphic Design.

Prerequisite: GRA 1132. Freehand methods and practice in pictorial and orthographic projections. Detail and sectional graphic design problems involving the geometry of points, lines, and planes in space relationships. Four hours laboratory. Two semester hours credit.

HOME ECONOMICS**Miss Carithers****HEC 1111 — Social Usage.**

The essentials of good manners and accepted standards of social usage. One lecture per week. One two-hour laboratory during the semester. One semester hour credit.

HEC 1213 — Food Selection and Preparation.

Principles of food selection, preparation, and service. One lecture. Four hours laboratory per week. Three semester hours credit.

HEC 1313 — Elementary Clothing.

Study of fabrics most commonly used; selection of fabrics and readymade clothing. Selection and use of commercial patterns. Planning and construction of simple garments. Use and care of sewing machines. One lecture. Four hours laboratory per week. Three semester hours credit.

HEC 2213 — Meal Management.

Problems in planning, preparation, and service for average family meals as to nutritive requirements, food budgets, and managerial principles. One lecture. Four hours laboratory per week. Three semester hours credit.

EPY 1222 — Reading Improvement II.

A continuation of EPY 1211. Three hours recitation per week. Two semester hours credit.

EPY 1232 — Speed Reading I (Comprehension).

Diagnostic testing followed by practice in skills according to the needs of the students. Emphasis on comprehension skills such as getting main ideas, summarizing, organizing and drawing conclusion. Guidance in developing reading interests that will provide background for college courses. Three hours recitation per week. Two semester hours credit.

EPY 1242 — Speed Reading II.

A course for students who have earned above average grades. Practice with laboratory equipment provided according to the needs of the individual. Emphasis on flexibility, critical thinking, retention and comprehension. Guidance in developing wide reading interests. Stimulation for reading in depth. Three hours recitation per week. Two semester hours credit.

EPY 1513 — General Psychology I.

An introduction to the scientific study of human behavior. Includes history and methods of psychology; growth and development; principles of learning; sensation and perception; thinking; statistics; personality; and intelligence. Three lectures per week. Three semester hours credit.

EPY 2513 — Child Psychology (Human Growth & Development I).

A course which deals with the various aspects of human growth and development. Problems studied include physical, mental, social, and emotional development from infancy through preadolescence. Special attention is given to the implications for education. Three lectures. Three semester hours credit.

EPY 2523 — Adolescent Psychology (Human Growth and Development II).

A study of the individual during the adolescent years. Three lectures. Three semester hours credit.

GEOGRAPHY

Mr. Brown

Geography 1113 — World Geography.

A regional survey of the basic geographic features and major new developments of the nations of the world. Three lectures. Three semester hours credit.

systems, equilibrium, friction, kinematics, kinetics of particles and rigid bodies, and vibrations. Three lectures. Three semester hours credit.

ENGLISH

**Mrs. Bunch, Miss Gill, Mrs. Haley
Mrs. Maxwell, Mrs. Terry**

ENG 0013 — Basic English I.

Designed for students who are not ready for college English Composition. An attempt is made to give the student material that will develop a good attitude toward his studies and the information and skill to allow him to communicate better through the written word. Three lectures. Three semester hours credit. (non-transferable).

ENG 0023 — Basic English II.

A continuation of ENG 0013. Three lectures. Three semester hours credit. (non-transferable).

ENG 1113 — English Composition I.

A study of grammar and composition, with emphasis on the sentence and the paragraph. Readings, frequent themes. Three lectures. Three semester hours credit.

ENG 1123 — English Composition II.

A continuation of ENG 1113 with emphasis on the whole composition. Readings, themes, and research paper required. Three lectures. Three semester hours credit.

ENG 2233 — English Literature I.

A survey of English literature from Beowulf through the Age of Neo-Classicism. Three lectures. Three semester hours credit.

ENG 2243 — English Literature II.

A survey of English literature from the Age of Revolution and Romance to the present time. Three lectures. Three semester hours credit.

PSYCHOLOGY

Mr. Henson, Mrs. Williams

EPY 1212 — Reading Improvements I.

A course provided to help students develop reading skills necessary for success in college. Diagnostic testing followed by practice in skills according to the needs of the student. Emphasis on spelling, pronunciation, vocabulary and study skills. Guidance in developing wide reading interests. Three hours recitation per week. Two semester hours credit.

CHEMISTRY**Mr. Sanders****CHE 1214 — General Chemistry I.**

An introductory course dealing with such fundamentals as atomic structure, chemical formulas, equations, reactions, and ionization. Qualitative analysis is included in the course along with quantitative measurements and calculation, and the preparation and properties of inorganic substances. Three lectures and three hours laboratory per week. Four semester hours credit.

CHE 1224 — General Chemistry II.

Continuation of CHE 1214. Chemical equilibrium and colloidal state are taken up. Three lectures and three hours laboratory per week. Four semester hours credit.

CHE 2425 — Organic Chemistry I.

Basic principles of carbon chemistry bonding, structure, and behavior; aliphatic compounds; identification and preparation of compounds. Prerequisite: General Chemistry 1224. Three lectures and six hours laboratory per week. Five semester hours credit.

CHE 2435 — Organic Chemistry II.

Continuation of Chemistry 2425. Aromatic and complex compounds. Three lectures and six hours laboratory per week. Five semester hours credit.

ECONOMICS**Mr. Sumrall****ECO 2113 — Principles of Economics I.**

This course is designed to give a general knowledge of economic terms and laws and the principles governing production, consumption, value, price, distribution, competition, money, and banking. Three hours per week. Three semester hours credit.

ECO 2123 — Principles of Economics II.

This course is designed to give a general knowledge of the value of money, ways the value of money is controlled by the Federal Reserve System, economic rent, wages, profits, national income, interregional trade and investment, contemporary foreign exchange problems, governmental revenue, taxation, the organized labor movement, and the economic systems of the world. Three hours per week. Three semester hours credit.

ENGINEERING**Mr. Shirley****EGR 2413 — Engineering Mechanics (Statics, Strength & Dynamics).**

Engineering mechanics, vector algebra, vector calculus, force

emphasis on the physiological process and growth of plant life. Two lectures and two hours laboratory per week. Three semester hours credit.

BIO 1323 — Botany II.

General morphology of algae, liverworts, mosses, ferns, seeds and plants, using selected representative types of each in both lectures and laboratory. Two lectures and two hours laboratory per week. Three semester hours credit.

BIO 2313 — Dendrology.

Identification, recognition, and morphological characteristics of woody plants. Prerequisite: First semester general Botany. Two lectures; four hours laboratory and field work. Three semester hours credit.

BIO 2414 — Zoology I.

An introductory course in college zoology. This semester includes studies of basic scientific principles: behavior and structure of matter; the study of life characteristics such as protoplasm, cell, metabolism, respiration, growth, reproduction, heredity; and body plan including tissues and systems. The course also includes a study of the developmental sequence and begins a detailed study of the major animal groups. Designed especially for pre-medical and other pre-professional fields. Three lectures and two hours laboratory per week. Four semester hours credit.

BIO 2424 — Zoology II.

A continuation of studies of the major animal groups. This course will terminate with a study of man and ecology. Typical vertebrates are dissected in the laboratory. Prerequisite: Zoology 2414. Two lectures and four hours laboratory per week. Four semester hours credit.

BIO 2513 — Human Anatomy and Physiology.

A study is made of the anatomy and physiology of the human body as an integrated whole with more detailed studies of the skeletal, muscular, and nervous systems. Two lectures, two laboratory periods.

BIO 2523 — Human Anatomy and Physiology.

This is a continuation of Anatomy and Physiology 2513 in which the circulatory, respiratory, digestive, urinary, reproductive, and endocrine systems are studied. Prerequisite: Human Anatomy 2513. Two lectures, two laboratory periods.

BIO 2924 — Microbiology.

A survey of the microbes (microscopic organisms) of the plant and animal kingdoms, with emphasis and detailed study being placed on those affecting other forms of life, especially man. Laboratory is devoted to basic techniques of microbial study, such as culturing, identifying, control, anatomy and life cycles. Two lectures and four hours laboratory per week. Four semester hours credit.

ART 1413 — Design I.

Emphasis on principles and materials in visual design. Introduction to theory and terms. Use of color theory and elementary lettering. Six hours laboratory per week. Three semester hours credit.

ART 1423 — Design II (Prerequisite: Art 1313 or special permission of the instructor).

Continuation of basic principles of design, color and texture. Creative approach to the three dimensional design. Study of methods of water color, tempera and fluid media. Required of art majors. Six hours laboratory per week. Three semester hours credit.

ART 2313 — Drawing III.

Fluid media techniques; wash drawing. Interpretation and composition emphasized. Prerequisite: Permission of the instructor. Two lectures, four hours laboratory per week. Three semester hours credit.

ART 2323 — Drawing IV.

Fluid media techniques; wash drawing, interpretation and composition emphasized. Prerequisite: Permission of the instructor. Two lectures and four hours laboratory per week. Three semester hours credit.

ART 2513 — Painting I.

Techniques used in painting water colors, oils, pastel or other media in still life and landscape pictures. Three hours laboratory per week. Three semester hours institutional credit. (Non-transferable)

BUSINESS ADMINISTRATION

Miss Covington, Mr. Earle

BAD 2323 — Business Statistics.

Introduction to statistical methods of collecting, presenting, analyzing, and interpreting, quantitative data for business management and control. Three lectures. Three semester hours credit.

BAD 2413 — Business Law I.

This course is designed to acquaint the students with the fundamental principles of law as they relate to the basic legal problems of business transactions in our economy. Special attention will be given to an introduction to law; law of contracts; agencies and employment; negotiable instruments and commercial papers. Three lectures. Three semester hours credit.

BIOLOGY

Mr. Arnold, Mr. Burns

BIO 1313 — Botany I.

This course deals with growth and microscopic structure of roots, stems, leaves, flowers, and fruits and flowering plants with

AGRICULTURE**Mr. Cleveland****AGR 1214 — Animal Science.**

Fundamental principles and practical application of livestock, dairy, and poultry science. Prerequisite to all animal husbandry, dairy science, and poultry courses. Three hours lecture and two hours laboratory. Four semester hours credit.

AGR 1313 — Plant Science.

Scientific principles as the basis for practice in producing, handling, processing, marketing, and utilizing agronomic and horticultural crops. Two hours lecture and two hours laboratory per week. Three semester hours credit.

AGR 2314 — Basic Soils.

A general course in soils designed to give the student a basic understanding of all important phases of the subject, including soil genesis, morphology, classification, and the physical, chemical and biological aspects of soils as applied to soil fertility. Soil management, including fertilization and liming of soils, is also included. Three hours lecture, two hours laboratory per week. Four semester hours credit.

AGR 2713 — Principles of Agricultural Economics.

A general course on the basic principles of economics and their application to agricultural problems: American economic development, production, and business organizations; the law of diminishing returns; principles of trade and production; farm organization; exchange value and market price; cost of production; price level movement; and the farm and the government. Three lectures. Three semester hours credit.

ART**Mrs. Parker****ART 1113 — Art Appreciation.**

A simple approach to the understanding of the visual arts (drawings, architecture, sculpture, painting, graphics) on a conceptual basis. Three lectures. Three semester hours credit.

ART 1313 — Drawing I.

Study of basic principles of construction of visual forms. Emphasis on line, perspective, and shading. Use of black and white — media: pencil and charcoal. Required of art majors. Six hours laboratory per week. Three semester hours credit.

ART 1323 — Drawing II (Prerequisite: Art 1313).

Introduction to color dynamics and precision drawing as used in creative expression. Emphasis on composition. Required of art majors. Six hours laboratory per week. Three semester hours credit.

projects in each area. The theory of estimating damage and the cost of repairing wrecks is also included.

Students study the theory and techniques of automobile painting, use of the acrylic paint, lacquer and enamel, construction and operation of the necessary equipment such as air requirements, types of spray patterns, spray gun care and operation, sanding, masking, removing paint, painting over bare metal, painting lacquer over lacquer, spot painting, off spot mixing colors, and the related laboratory projects. This area of training also includes the principles of arc and gas welding. This course runs for 18 calendar months, meeting six hours a day for five school days per week (30 hours per week). The two classes are limited to a total of forty students.

DESCRIPTION OF COURSES

ACCOUNTING

Miss Covington

ACC 1213 — Principles of Accounting I.

A study of the elementary accounting principles as applied to the various forms of business organizations, and an introduction to specialized fields of accounting. Three lectures. Three semester hours credit.

ACC 1223 — Principles of Accounting II.

A continuation of Accounting 1213. Prerequisite: Accounting 1213. Three lectures. Three semester hours credit.

ACC 1311 — Accounting Practice Case I.

Completion of two practice sets for single proprietorships. One business uses the sales, cash receipts, purchases, and cash payments journals and the other uses the voucher system. Two hours laboratory. One hour credit.

ACC 1321 — Accounting Practice Case II.

Completion of two practice sets for corporations. One corporation purchases and sells merchandise employing the voucher system. The other manufactures and sells its products utilizing the job order cost system. Two hours laboratory. One hour credit.

ACC 2313 — Cost Accounting.

The course includes the fundamental principles employed in accounting for the three elements of cost; materials, labor, and factory overhead expenses; the application of these principles in a job order system of cost accounting, a process system of cost accounting, and a standard cost system; and various miscellaneous techniques used in cost accounting. Three semester hours credit.

course of study and satisfactory writing of the State Board Examination, Licensed Practical Nurses. The first four months foundation period offers instruction in orientation to practical nursing, health, normal nutrition, human development, introduction to nursing the patient, introduction to illness, and nursing care of selected patients.

The remaining eight months of training offer clinical experience and theory in medical-surgical nursing, pediatric nursing, and maternity nursing. A certificate is awarded upon completion of the course. The class is limited to fifteen students.

REQUIREMENTS FOR ADMISSION

Admission requirements to be met before a student enters training are:

1. The applicant shall be at least 18 years of age.
2. The applicant shall give evidence that he or she has completed the 12th grade in school or made an equivalent score on the G.E.D. Test.
3. The applicant shall make satisfactory scores on tests given by the U. S. Employment Service and Holmes Junior College.
4. All applicants must have an I.Q. of 90 or above.
5. The applicant shall be physically and emotionally fit as established by a completed physical examination and recommendation of the examining physician. The applicant must have up-to-date immunizations against smallpox and typhoid fever.
6. The applicant shall be a citizen of the United States or have pending citizenship.
7. The applicant shall present herself before an Admissions Committee, which after reviewing all records and interviewing her, will make recommendations as to whether or not it thinks she shows promise of becoming a good practical nurse. Records shall be kept of the interview.

The Practical Nursing program at Holmes Junior College is affiliated with five area hospitals.

COURSE XLI

Auto Body and Fender Repair

Mr. Horne

The training in Auto Body and Fender Repair includes the basic theory, assortment, and use of hand tools in the automotive trade; the principles of panel installation; aligning doors and panels and straightening frames; and the use of hydraulic jacks and practical related laboratory projects. A thorough knowledge of the construction, removal and replacement of body panels is also included in this area of training. The students learns the techniques of applying fender, floor, and trunk patches with practical related laboratory

Basic electronics, circuit theory, servicing, operation, and alignment procedures will be taught on live equipment to familiarize the student with actual on-the-job troubles. Special emphasis will be placed on solid-state equipment and future technological developments. The student will also be subjected to selected information to prepare for the second-class FCC commercial license examination.

This course runs for 18 calendar months meeting six clock hours a day for five school days per week (30 hours per week). The class is limited to twenty students.

COURSE XXXVIII

Refrigeration and Air Conditioning

Mr. McKibben

The objective of this course is to train students in the principles of refrigeration and refrigerant chemicals; types of refrigeration units and systems, compressors, evaporators, and condensers; the overhaul and repair of compressors, controls, valves, motors, seals, thermostats; refrigerator troubles and symptoms; service tests and methods; installation methods, safety rules and equipment; principles, operation, and care of air-conditioning units and systems; ducts, air-flow, air filtering, washing, dehumidifying and cooling; heat loss and heat load calculations; duct design and air duct distribution systems. This course runs 18 calendar months, meeting six clock hours a day, five days a week (30 hours per week). The class is limited to 20 students.

COURSE XXXIX

Welding

Mr. Taylor, Mr. Burrell

The objective of this course is to train students in the fundamental operations of welding equipment. This course gives the students much practical experience in electric arc welding, oxygen-acetylene welding, inert gas and semi-automatic welding. The student will also gain experience in types of machines, rods metallurgy, weldability, and settings. This course runs for 9 months, meeting six hours per day, five days per week (30 hours per week). The class is limited to twenty students.

COURSE XL

Practical Nursing Education

Mrs. Brewer, Mrs. Cummings

This is a twelve-months course designed to prepare qualified men and women to become, upon completion of the prescribed

much practical experience in overhauling engines, transmissions, clutches, rear ends; replacing and adjusting brakes; and other practices that are encountered in the repairing of various makes and models of automotive equipment. This course runs for 18 calendar months, meeting six hours a day for five school days per week (30 hours per week). The two classes are limited to a total of forty students.

COURSE XXXV

COSMETOLOGY

Mrs. Hutchison

This course is designed for students who desire to become Cosmetologists. It is approved by the State Board of Education and the Mississippi State Board of Cosmetology. A student who satisfactorily completes this course will be issued a certificate which entitles her to take the State Cosmetology Board examination for a license to become a hairdresser in the State of Mississippi.

This course runs ten calendar months and meets eight hours per day, five days a week. The class is limited to twenty students.

COURSE XXXVI

MACHINE SHOP

Mr. Mason

The objective of this course is to train students in the fundamental operations of machine tools and to equip them to enter production as efficiently trained machinists. Classroom work includes mechanical drawing, mathematical problems, and studies related to the various phases of machine shop work, laboratory work, or actual shop practice. It also consists of training in bench work, lathe work, milling machine operations, drill presses, metal planers, dole saws, instrument reading, tool making, etc. This course runs for 18 calendar months meeting six clock hours a day for five school days per week (30 hours per week). The class is limited to twenty students.

COURSE XXXVII

Electronic Servicing

Mr. Arnett

This course is designed to give the student training in basic electronic theory; AM and FM receiver construction and maintenance, radio and television maintenance and repair. Two-way radio construction, service and alignment procedures; and the proper use of tools and test instruments.

VOCATIONAL EDUCATION

The Division of Vocational Education provides programs of study, facilities, and instruction of high quality to every youth and adult who possesses the desire and capability to acquire the knowledge and skills which will enable him to successfully enter and compete in the world of work. Specific occupational training is offered in seven courses of study, each having the objective of aiding students in developing those skills, attitudes, understandings, work habits, and knowledge which will lead to a productive, personally satisfying, and socially useful life.

A student may enter Welding or Auto Mechanics at the beginning of the fall or spring semester. Entrance into other courses is limited to Fall semester only. Those students enrolled in Auto Mechanics, Electronic Servicing, and Cosmetology are required to supply their own hand tools.

A certificate is given students showing successful completion of vocational non-accredited courses.

ADMISSIONS REQUIREMENTS

(for all except Practical Nursing)

1. Provide proof of tenth grade educational attainment. If not a high school graduate, the applicant must be 18 years of age.
2. Applicant must deposit \$25.00 (non-refundable, but will apply toward student fees).
3. Applicants must take the ACT and other tests to determine admission to the specific vocational program.
4. Two health certificates must be filled out and signed by a doctor within one month of entrance (cosmetology).
5. An interview with your teacher must be completed (cosmetology).

Listed below are the courses offered through the Division of Vocational Education and the length of training time required for completing each course. Each class except Practical Nursing is limited to twenty students. However, if there is sufficient demand, additional classes will be offered in each program.

COURSE XXXIV

AUTOMOBILE MECHANICS

Mr. Hathcock, Mr. Moss

The many problems and techniques related to the various types of automotive equipment and tools are stressed through lecture and recitation. Actual shop work is required. This work gives students

COURSE XXXIII

Building and Construction Technology

Note: This is a terminal course not designed for transfer.

Construction Technology is concerned with the designing, supervision, and construction of homes, commercial buildings, and other building projects. The course offers both creative and practical training. The student is taught to draw plans, design, and follow through with the construction details and methods.

Emphasis is placed on Architectural Technology, which offers such projects as building specifications and codes, blueprint reading, building design, cost and estimates. Basic subjects as physics, mathematics, English, human relations, small business management, general woodwork, technical writing, and public speaking are included.

Students who complete this course are prepared to fill jobs in architectural and engineering offices, with building contractors, and with manufacturers of building materials. Some of the many jobs available to persons trained in this field include: architectural and engineering draftsmen, junior engineering, general contractor's assistant, manager or salesman for building materials and lumber companies, appraiser and inspector, and estimator.

TECHNICAL EDUCATION

The programs of study set forth on the following pages are designed to lead to the Associate of Arts Degree from this college. They are designed for the student who desires to go to work upon completion of two years of college. These programs are referred to as terminal programs. They are not designed for transfer.

Students applying for admission in Technical Education must meet the same admissions requirements as other college students.

Although all courses offered in every program are college-level courses, most programs contain some courses which will not transfer to a four-year college.

The student who completes the requirements for the Associate of Arts Degree is prepared to enter employment at the level of the semi-professional or technician. The demand for trained people at this level is very great, and it is expected to become greater.

Technical Education Programs

Secretarial

Data Processing

Drafting and Design

Building and Construction

COURSE XXX

Secretarial

This course is designed as a terminal program and not for transfer. It is designed for students who plan to work upon the completion of either the first or second year depending upon their desire for a better rounded business education.

A student will be eligible for a one-year certificate when she (1) completes the scheduled work for the first year and (2) has earned a 2.0 or better quality point average.

A student is eligible for a two-year certificate if she (1) completes the scheduled work for two years and (2) maintains an overall 2.0 or better quality point average.

SEC 1103 and SEC 1203 are beginning courses in typewriting and shorthand. Some schools will not accept them toward a degree but they are accepted here as credit toward a secretarial certificate.

THE COSMETOLOGY CLUB is organized for the purpose of promoting good public relations and to learn professional practices and business ethics. Many activities including several field trips are included. It is composed of all cosmetology students.

THE CHOIR is known for its high standards of excellence. Last year, the Holmes Concert Choir performed for over 8,000 people. Its concert schedule is climaxed by a tour. Membership is by audition and is open to all students.

THE BAND offers participation in Marching Band, Concert Band, Percussion Choir, Jazz Ensemble, Jazz Combo, Small Winds Ensemble, Rifle Corps, Flag Corps, and Color Guard performances in concerts, parades, half-time routines, and pageantry entertainment. Membership is open to all students by audition.

THE COACHMEN is a vocal ensemble performing popular and folk music. The Coachmen are annual performers at the Mississippi Arts Festival and frequently appear on T.V. Many concerts are given each year. Membership is by audition and is open to all students.

RELIGIOUS CLUBS, including the Baptist Student Union, Wesley Foundation, and Christian Council aim to foster Christian faith and fellowship. All students are welcome to meetings and activities.

HORIZONS is the college yearbook. It was first published in 1928-29. This annual is a credit to those who have worked to give our students a pictorial review of their college days and will serve to remind them of friends for many years to come.

THE GROWL is the college paper. It has won its way into the lives of our students and friends. Through the columns of the school paper, the students find a chance to learn the art of writing news at close range.

ATHLETIC ACTIVITIES encourage participation by the students. The college recognizes the benefits to the student and the desirability of maintaining a strong physical body along with an active mind. It has thus provided for football, basketball, baseball, track, tennis, volleyball, and other sports from the standpoint of the intramural and intercollegiate competition.

THE CHESS CLUB is designed to teach the principles of chess, to stimulate competition, and to promote interest in the game. Membership is open to all students and faculty members.

COLLEGIATE CIVITAN CLUB is designed to promote better citizenship. Membership in the club is by invitation only. A member must be a full-time student and must maintain a two-point average.

Mail Services

Student mail should be addressed to Holmes Junior College, Goodman, Mississippi 39079. Students receive their mail through post office boxes. The fee for the boxes is \$1.00 a semester and is included in the general fees.

Student Conduct

Students are expected to conform to acceptable standards of decency, morality, and courtesy; be truthful; respect the rights of others; be punctual and regular in attendance at classes and assemblies; have regard for college property.

Guides for routine campus and dormitory life are provided students through announcements, student meetings, bulletins, and student handbooks. Through action by the disciplinary committee a student may be excluded from further attendance where evidence indicates that a student participates in unacceptable campus conduct.

STUDENT ACTIVITIES

The development of the student is encouraged through an extensive program of co-curricular activities. Campus organizations under faculty guidance provide ample opportunity for growth in leadership, cooperation, and social poise. Membership in some groups is open. In other groups, membership is by invitation. Students are urged to participate in their areas of interest.

THE STUDENT GOVERNMENT ASSOCIATION is composed of officers and representatives elected by the student body. It serves in the capacity of a mediator between faculty and student body and assists in students activities.

PHI THETA KAPPA is the national honorary scholastic society for junior colleges. The purpose is to promote scholarship, develop character and leadership, and to cultivate fellowship among those interested in cultural opportunities. Membership is by invitation and is restricted to full-time students with quality point averages in the highest 10 per cent of the grades of all academic students.

PHI BETA LAMBDA is an organization for the purpose of promoting business leadership and of creating interest and understanding in the intelligent choice of business occupations. Membership is open to students enrolled in one or more business subjects.

HOLME TOWNE PLAYERS (DRAMA CLUB) is organized to let students participate in acting, publicity and back-stage work. This club is known for the fine quality of production and is open to all students.

THE LOTTIE PEEBLES HOME ECONOMICS CLUB is open to home economics majors and minors. The purpose of the club is to encourage professional growth.

The above information is a summary of the student aid program. For further information and application forms write to:

Director of Financial Aid
Holmes Junior College
Goodman, Miss. 39079

Student Housing

There are four men's residence halls that provide space for 488 students. These are Madison, Attala, Motel, and Choctaw. Normally, freshmen are assigned to Madison, vocational students to Motel, athletic students to Attala, and sophomores to Choctaw. Each dormitory has public telephone service, and all are air-conditioned.

There are three women's residence halls that provide space for 259 students. These are Grenada, Webster, and Yazoo. Normally, freshmen and cosmetology students are assigned to Grenada and Webster; and sophomores to Yazoo Hall. Each of these dormitories have public phone service and individual phone service is available. Each of the buildings are air-conditioned.

Rooms in the residence halls are furnished with single beds, dressers, chairs, and tables. Students are accountable for the care of the room and furnishings.

Room reservations are made only after payment of a \$10 reservation fee. This fee is non-refundable.

Automobiles

Students who wish to operate an automobile on the campus must register the car in the office of the Dean of Student Affairs. A sticker with a registration number is provided the student upon payment of a \$1.00 fee.

Students must park cars in designated areas. Fines will be assessed for failure to do so. Continued abuse of regulations will result in withdrawal of permission to operate a vehicle on the campus. This applies to all students — dormitory and non-dormitory alike.

Laundry and Dry Cleaning

The college owns and operates its own laundry and dry cleaning plant on a non-profit basis. Thus, we are able to give our students excellent laundry service at a minimum cost of \$18.00 per semester. Dry cleaning charges are minimum.

Books

Books and supplies may be purchased from the book store located in the Lorange Center. Both new and used books are available. The book store will buy books from students at a reasonable discount, depending upon the care that has been taken in the use of the books.

By careful buying and use of books, the cost may be kept to a minimum.

Placement

Placement activities are designed to aid both the academic student and the vocational-technical student. A supply of senior college information is available in the Guidance Department, and counselors are available to assist students in transferring. The Vocational Counselor assists the vocational-technical students in finding permanent employment.

Health Service

A school nurse is employed full time. In case of emergencies, the school will see that a student is taken to a hospital. The cost of hospitalization, doctor bills, and medicine, other than that given by the school nurse, must be paid for by the student.

Scholarships

Scholarships are available and are awarded on the basis of individual talent, ability, and ACT score. The scholarship awards are in the fields of music, band, and athletics. Students making a composite score of 25 on the ACT will receive a \$200.00 award, and will be required to maintain a C average to continue the award. Other awards range in value from \$90.00 to \$674.00.

Financial Aid

The Financial Aid Program at Holmes Junior College believes that no qualified student should be denied an education because of financial need. Financial aid is available to help students meet post-secondary education costs through a program of grants (Basic Educational Opportunity Grant, Supplemental Educational Opportunity Grant, State Student Incentive Grant), loans, (National Direct Student Loan) and College work-study.

In addition, we also offer a school sponsored work program for students with an interest and desire to work. We assist students with applications for Federally Insured Student Loans.

All applicants for student aid of any type must have been accepted for admission at Holmes Junior College before assistance can be granted. This does not preclude the submission of an application for assistance at the time application for admission to Holmes Junior College is made.

Applications for financial aid are requested by April 1st, but application will be considered at any date.

Holmes Junior College participates in The Basic Educational Opportunity Grant — Family Contribution Schedule method for financial needs analysis. Participants in BEOG-FCS subscribe to the principle that the amount of financial aid granted a student should be based upon financial need. All students seeking financial assistance through the federally assisted programs are required to submit a BEOG application. The BEOG form may be obtained from a secondary school or the Financial Aid Department at Holmes Junior College.

matriculation and is non-refundable. The remaining ninety dollars is refundable as follows:

One week or less	90 per cent
Less than two weeks	75 per cent
Less than three weeks	50 per cent
Less than four weeks	25 per cent
Four or more weeks	0 per cent

- b. Room rent of \$55.00 per semester is non-refundable.
- c. Board is refunded on the basis of weeks left in a semester after the week in which withdrawal occurs. The date of withdrawal shall be the date of signing of the official withdrawal sheet by the business office. No reduction is made for absences of less than two continuous weeks (holidays excluded).
- d. Refund policy for veterans provides that a refund will be made upon application on a pro-rata basis to an eligible person (service man on active duty, veteran, or war orphan) in receipt of educational benefits pursuing courses of instruction on a non-accredited clock hour basis from the Veterans Administration under existing published laws.

STUDENT SERVICE

Counseling and Advisement

The Guidance Department provides academic, social, personal, and vocational counseling for students in an effort to help with personal adjustment, establishing values, determining interests, and choosing vocational and career objectives. Counselors assist the student to formulate and clarify goals and to evaluate intelligently his own abilities, personality traits, and openness to the experiences he is undergoing in an academic community. The student is encouraged at all times to seek counsel, not only in the face of specific problems, but also to discuss ways of constantly improving the skills required for effective living.

Orientation

The first day of school will include an orientation program designed to introduce students to college life and aid in making adjustments. Topics will include general school regulations, school activities, academic policies, and dormitory conduct. All new students must take part in the orientation program.

Testing

Holmes Junior College is a test center for the American College Test (ACT), College Level Examination Program (CLEP), and General Educational Development Test (GED). Applications for each of these tests may be obtained from the Director of Guidance.

The Guidance Department provides a wide variety of specialized tests for students. The various tests are administered, scored, and interpreted as the need arises, and are used as counseling aids.

The preceeding costs are due and payable at the time of registration each semester. Upon request, the following payment schedule may be allowed:

Deferred Payment Calendar for District Dormitory Students

Fall Semester — On Entrance:

August 23, 1976	\$236.00
October 4, 1976	81.00
November 15, 1976	81.00

Spring Semester — On Entrance:

January 10, 1977	\$236.00
February 21, 1977	81.00
April 4, 1977	81.00
Total for school year	796.00

+NOTE: All costs are on a semester basis. The above dates for payment are for convenience only. Holmes Junior College reserves the right to change any charges published when in the judgement of the administration and conditions justify doing this.

Students should have no trouble discerning that the payment on entrance consists of fixed fees of \$100.00 and the non-refundable room rent of \$55.00 plus one-third of the semester costs for board and laundry of \$81.00. This totals \$236.00. The other two payments each semester are for board and laundry and each payment equals one-third of semester costs for board and laundry which is \$81.00.

Out-of-District Mississippi students pay \$45 per semester in addition to the above costs for district students.

Out-of-state students pay \$125 per semester in addition to the costs for district students.

All vocational students pay the same fees as academic students. They also pay \$22.50 per semester for cost of supplies except welding students who pay \$45 per semester.

Parents who do not find the schedule for payments convenient may make special arrangements with the business office.

Books:

The cost of books depends on the course of study and whether second-hand books are available. Students may resell to the Campus Bookstore textbooks that are usable again the next session.

Deposits:

Deposits are required for room reservations, for keys to dormitory rooms, for damage to dormitory rooms and hallways, and for assuring a place in certain vocational courses.

Refund Policy:

a. Fees — Ten dollars of the one hundred dollar entrance fee is for

4. Serves as identification at the Campus Bookstore, the Security Office, the Business Office, and Student Elections.

A late registration fee of \$5.00 is charged to any student who fails to register according to the time schedule for registration. An IN-COMplete registration constitutes a LATE REGISTRATION. The late registration fee will be charged beginning at noon of the first day of classes.

Non-Resident Tuition:

All students whose parents reside in Mississippi, but do **not** reside in Attala, Carroll, Choctaw, Grenada, Holmes, Madison, Montgomery, Webster, and Yazoo counties, will pay an out-of-district tuition of \$90.00 per school year. This is payable by the semester in advance and is non-refundable after classes have been met. Vocational students whose parents reside in Mississippi but are not from the above counties will be charged at the rate of area students WHEN THERE IS NO COMPARABLE COURSE offered by the junior college responsible for the area in which the student resides.

All students whose parents reside outside the state of Mississippi will pay a tuition fee of **\$250.00 for the school year**. This fee is payable in advance at the beginning of each semester and is non-refundable after the student has met classes.

Room and Board:

A dormitory resident will pay \$55.00 a semester for a room. This is collected in advance at the first of each semester and is non-refundable.

Board will be \$225 per semester or \$450 per year. It is due and payable at the beginning of each semester. However, upon request, the board payments may be deferred according to the schedule shown below.

Day Student (Each Semester)

1. District Students (Students from Attala, Carroll, Choctaw, Grenada, Holmes, Madison, Montgomery, Webster, and Yazoo counties) Pay in Advance	\$100.00
2. Other Mississippi Students	\$145.00
3. Out-of-State Students	\$225.00

Dormitory Students (Each Semester)

Laundry is provided for dormitory students at \$18.00 per semester. This charge is included in the following:

1. District Students	\$398.00
2. Other Mississippi Students	\$443.00
3. Out-of-State Students	\$523.00
